LETTER OF RECOMMENDATION

It is my great pleasure to recommend Consumer Insight Consulting for the Sensory Workshop. Poznań Quality Assurance Department had a chance to participate in training: "Fundamentals of the sensory analysis & the verification of the sensory sensitivity" provided by Agata Markiewicz.

During the workshop, Mrs. Agata presented theoretical knowledge in very familiar way, at once we were able to incorporate her instruction in our everyday work. The second part of the workshop consisted of sensory tests, focused on all senses. The third part of sensory training was based on Unilever product.

I highly recommend the training with absolute confidence.

Sincerely

Renata Czyżykowska

QA Laboratory Coordinator
