RECOMMENDATION

It is my pleasure to recommend Consumer Insight Consulting company in Plewiska, that led a series of trainings named **'Fundamentals of the sensory analysis & the verification of the sensory sensitivity'** for employees of Zeelandia Sp. z o.o. company in Tarnowo Podgórne.

Trainings were organised in the form of sensory workshop that were led in a professional and very interesting way. My Team was very satisfied after participation into sensory workshop and gained a lot of practical information that now are implemented with success in our daily work e.g. the organisation of tasting session in professional way.

Agata Markiewicz, as a trainer, was didactic, flexible, communicative and had a good contact with groups.

During the sensory workshop were led useful exercises that helped participants to better understand new knowledge by practicing it shortly afterwards. Thanks to this participants could not only actively spend time, but also have the opportunity to understand better the information obtained during the theoretical part.

The sensory tests were led professionally and efficiently. 2 days after sensory workshop I received a report with the sensory results of the whole group, as well as of individuals.

For these reasons I would like to recommend the services of Consumer Insight Consulting in Plewiska, as a solid company that guarantees the high quality of training.
